

## Bayan Initiative for Distributing Iftar Meals

Within the framework of Bayan Investment Holding Company's commitment to its social responsibilities and its support for the local community, taking into consideration the current circumstances the country is facing, and in compliance with the Ministry of Social Affairs' instructions prohibiting gatherings and with necessary safety measures in place, we are pleased to announce our annual initiative to distribute iftar meals to fasting individuals during the blessed month of Ramadan at one of the mosques in the State of Kuwait.

This initiative reflects the values of generosity and social solidarity, and aims to provide support and assistance to those who need it by distributing iftar meals to vulnerable families in the community. These efforts are a continuation of our commitment to supporting targeted community activities to build a healthy, sustainable society, and to participate in voluntary initiatives that highlight the importance of benevolence and volunteer work.
